SUES GOTHAM LAWYER FOR \$50,000 HEART BALM

Dorothy James Charges Walter H. Cahill, Attorney, Broke His Promise to Wed.

New York, Oct. 15.—Walter H. Cahill, son of John H. Cahill, general counsel for the New York Telephone Company, who is a lawyer in his father's office, was sued today for \$50,000 damages by Miss Dorothy James, who alleges young Cahill failed to keep his promise to marry her.

Miss James' lawyer, J. W. Fuller-Thompson, describes her as an exceptionally beautiful girl of twenty-one, who has a large social acquaintance, and who lives with her mother uptown.

Miss James alleges that she met Cahill last November, that he promised last December to marry her in September, just past, and that he has disappeared. She says, too, that she is approaching motherhood and asserts the young lawyer is the father of her unborn child.

Cahill lives with his father at the Waldorf-Astoria, and is "outside man" for the telephone company's legal department.

A kitchen table the height of which is adjustable, has been invented to facilitate various kinds of work for which it may be needed.

SEES GERMAN COLLAPSE AT END OF THE WAR

Members, with Suit Cases Ready for Departure, Pass Measure with a Whoop.

Bolshoi's enthusiasm marked the passage in the House yesterday of a resolution repealing the resolution passed some weeks ago "docking" the pay of members who absented themselves from Washington without authority. It was a great day in the House, and last night scores of members packed their luggage and started for home to make an accounting to their constituents.

Leader Underwood was applauded when he rose in his place on the House yesterday.

He began by saying that the "docking" resolution was passed to maintain a quorum in Washington, but now that the House had practically concluded its labors for the session there was no reason why members should not go home without fear of pecuniary penalization.

Mr. Underwood said that next week the House would need a quorum to put through the war revenue bill as it came from the Senate, but he thought that the number of members could be brought back from near-by States. Representatives from Pacific Coast and far Western States applauded this sentiment.

Mr. Underwood expressed the opinion that the session would come to an end on or about October 24. The measure repealing the "docking" resolution was then passed with a whoop.

A meeting of the Rules Committee was held yesterday for the further consideration of the Henry cotton currency bill.

A good deal of opposition to a report on a special rule for the consideration of the measure developed, and it was decided to defer action until next Tuesday.

YEROME K. JEROME, the noted English playwright, who sees the end of Germany's sway as a nation as the only possible outcome of the present war. The allies have nothing to fear, he declares, from German arms or German diplomacy. "Under present conditions, though, the war may be long and terrible," he says. "It is inconceivable that it can have any other termination than the utter collapse of the German empire in its present form."

ANXIOUS FOR DISTRICT MAN.

Lawyers Agree Upon Good Men for the District Bench.

Three local lawyers were agreed upon as good men for the District bench yesterday by a special committee of the Bar Association of the District. The names will be reported to the Bar Association at an adjourned meeting to be held tomorrow afternoon. It is understood that they will all be endorsed by the association and sent to the White House with the request that the President name one of them for the place of Justice Daniel Thayer Wright, whose resignation becomes effective November 11.

The committee consisted of S. F. Leighton, chairman; Alexander H. Bell, Charles W. Claggett, J. Nott Gill, James R. Archer, Conrad H. Ryan, Leon T. Brainer, Edward H. Thomas and John W. Yerkes.

The association is anxious to see a District man appointed and will use all its influence with the Attorney General and the President to that end.

FRENCH NAB FIVE SPIES.

Five Germans with Bombs Captured on Trying to Enter.

Paris, Oct. 15.—Five German spies, masquerading as Red Cross aids, were arrested in Paris today.

For some weeks the party had been automobiling in the rear of the French lines. They had been furnished with forged papers, but were caught when they attempted to enter Paris, because they were unprovided for a pass signed by Gen. Gallieni.

Two bombs, several rifles and cartridges and sketches were found hidden in the automobile.

RED CROSS PRAISES WOMEN.

Mrs. Mackay Smith Contributes \$1,000 to Relief Funds.

That the women of the United States lately have taken an active interest in the relief work of the American Red Cross was the statement issued at headquarters in this city yesterday. Nearly every recognized woman's organization in the country has entered the field to help the Red Cross meet the unprecedented demands of the European war.

The report, highly praised the work being accomplished by the volunteer helpers of the Red Cross in the District. The helpers, headed by Mrs. Allen Boyd, are making 1,500 yards of cloth into hospital garments. In cash they have contributed \$33. Mrs. Mackay Smith, of this city, has given a check for \$1,000.

HIGHER FREIGHT RATES ARE URGED BY BANKERS

William A. Law, of Philadelphia, Is Made President of A. B. A. for Coming Year.

TO MEET AT SEATTLE IN 1915

Richmond, Va., Oct. 15.—The fortieth annual convention of the American Bankers' Association closed this evening. William A. Law, of Philadelphia, was elected president, and James K. Lynch, of San Francisco, vice president. F. B. Farnsworth, of New York, secretary; J. W. Hoopes, of Galveston, Tex., treasurer; Thomas B. Patton, New York, general counsel, and L. W. Gammon, of New York, manager of the protective department were re-elected. Seattle was chosen as the 1915 convention city.

Action of nation-wide interest was taken at the morning session when, upon motion of Oliver J. Banda, president of the American National Bank, of Richmond, the association passed resolutions calling upon the Interstate Commerce Commission to grant the increase sought by the railroads. The preamble sets forth that the shock to financing and business interests of this country and the derangement of foreign exchange resulting from the European war are being overcome, and the most serious condition now confronting the financial, business and investment interests of this country arises from that fact that there is no market for securities, and until this is remedied the financial exchanges cannot be opened and business restored to normal conditions. The report on the Federal Reserve Bank relations recommended that the association do not institute a test of the Federal income tax clause of the tariff act.

In the District Courts

John B. Shinn, a clerk employed in the office of the District court, was yesterday in the District Court by Margaret M. Shinn. The wife alleges her spouse too frequently stayed out late at night. They were married in Baltimore July 12, 1910, and lived together until April, 1912. There are no children. Attorney John H. Zabel represents Mrs. Shinn.

The will of Peter De Graw, Fourth Assistant Postmaster General, under Postmaster General Hitchcock, was filed for probate yesterday. It leaves the whole estate to his wife, Emma Louise, and appoints her executrix.

Philip Baker and Arthur Ogden, both colored, pleaded guilty in Criminal Court No. 1 yesterday to having assaulted with intent to rob Mrs. Louise N. Sauber in her store, at New York avenue and Sixteenth street, northwest, June 29 last. They will be sentenced today. After striking Mrs. Sauber on the head with a hammer, the defendants were frightened away. Attorney H. Q. Alward appeared in court for them.

PHILIPPINES NEED OUR GUARDING, SAYS FORBES

Tells Mohonk Conference Only Small Percentage of Natives Vote. Which Proves Self-government Unstable.

Mohonk Lake, N. Y., Oct. 15.—Speaking before the conference here, on the Indian and other dependent peoples, W. Cameron Forbes declared today the United States must not give up the Philippines, because they would soon be gobbled up by some other power that, as yet, is in the air. He said that a stable government can be established.

"In looking upon the Philippine situation and trying to analyze the attitude of the Republican party and the Democratic party, I find that they seem to be agreed upon the principle that it has, by force of circumstances, become the duty of the United States to exercise control over the islands until such time as it is proven that a stable government can be established."

He then said that the vote of Filipinos is sometimes as low as 10 per cent of the voting population. This condition makes them unable to rule themselves, and would easily open the door to other nations seeking to seize those islands.

FOREST FIRE SWEEPING TOWARD RHODE ISLAND

Connecticut Promised Rain, Which Will Put Out Flames of Great Area.

Plainfield, Conn., Oct. 15.—Forest fires with a mile frontage are creeping toward Rhode Island tonight.

The great flames have been going since Sunday. Twenty thousand acres of valuable land, 100 miles of fencing and 10,000 cords of wood have been burned.

New Haven, Conn., Oct. 15.—Forest fires continue to menace property in many parts of the State. The prediction of rain was received with great joy by the fire fighters, as a rain will at once extinguish the fires and put an end to the damage going on.

Worcester, Mass., Oct. 15.—Forest fires of great violence are raging in Worcester County. From Mount Wachusett, thirty-five fires can be seen. Auburn and Rutland have asked Worcester for help. At the Rutland station some of the farm buildings are threatened.

ROAD INQUIRY STARTS TODAY.

The Interstate Commerce Commission yesterday completed all preparations for opening the Rock Island railroad investigation today. The first witnesses will be accountants, who will tell the results of their examinations of the books of the Rock Island system. It is the plan of the commission to call James Speyer and Daniel G. Reid early in the investigation. Some officials of the railroad are in Washington to testify.

LOUISVILLE DOESN'T ADMIRE HORSE MEAT FOR HAMBURGER

Louisville, Ky., Oct. 15.—For slaughtering horses and selling the meat to butchers, A. L. Koch was fined \$100 and sentenced to fifty days in jail today.

The horse meat was used in hamburger steak. It was discovered by Assistant Health Officer E. O. Witherspoon, who brought charges first against the retailers and then against Koch.

WOODWARD NOT EXCITED OVER LEPROSY CURE

"John Early Is So Full of Chaulmoogra Oil He Won't Take Any More," Says Health Officer.

Health Officer William C. Woodward couldn't get excited over the report yesterday that the Public Health Service had discovered a cure for leprosy in chaulmoogra oil, a tropical product. Dr. Woodward has a leper on his own hands in John Early, and would be very glad to find a cure for him or have him taken off his hands somehow.

Chaulmoogra oil has been used since the year in the treatment of leprosy, according to the local health officer, but Dr. Woodward was not familiar with the results of recent experiments.

"There is no use of me talking chaulmoogra oil," said Early, "for I have been full of it so many times that he will not take any more. It has not improved his condition."

The Public Health Service does not claim an absolute cure, but Surg. Victor G. Heiser, director of health in the Philippines, asserts that chaulmoogra oil has been "fairly successful." He says it apparently effected a cure in four cases in a Philippine hospital, and that in several other cases it arrested the disease and resorted.

A CHILD DOESN'T LAUGH AND PLAY IF CONSTIPATED

If peevish, feverish, and sick, give "California Syrup of Figs."

Mother! Your child isn't naturally cross and peevish. See if tongue is coated; this is a sure sign its little stomach, liver, and bowels need a cleansing at once.

When listless, pale, feverish, full of cold, breath bad, throat sore, doesn't eat, sleep, or act naturally, has stomach-ache, diarrhoea, remember, a gentle liver and bowel cleansing should always be the first treatment given.

Nothing equals "California Syrup of Figs" for children's use; give a teaspoonful, and in a few hours all the foul waste, sour bile, and fermenting food which is clogged in the bowels passes out of the system, and you have a well and playful child again. All children love this harmless, delicious "Fruit Laxative," and it never fails to effect a good "inside" cleansing. Directions for babies, children of all ages, and grown-ups are plainly on the bottle.

Keep it handy in your home. A little given today saves a sick child tomorrow, but get the genuine. Ask your druggist for a 10-cent bottle of "California Syrup of Figs," then look and see that it is made by the "California Fig Syrup Company."—Adv.

CAN VOTE AND DON'T.

Mrs. Stubbs' Complaint About the Women of Oregon.

The majority of the middle class of women in the Suffrage States have never bothered with registering or voting, says Mrs. Jessie H. Stubbs, who is conducting the campaign against the Democrats in Oregon, in a letter received at Congressional Union headquarters in this city.

Mrs. Stubbs states that she intends to make a personal tour of factories, stores and other places where these women are to be found, and urge them to make use of the privilege which some of the women of the East are striving for.

SIGNS CLAYTON ANTI-TRUST BILL

President Wilson yesterday signed the Clayton anti-trust bill, the second and last of the administration's trust measures. This is the bill which many believe exempt labor unions from prosecution under the Sherman anti-trust law and legalizes picketing.

WILSON INDORSES GLYNN.

President Wilson yesterday gave his formal indorsement to Gov. Glynn as a progressive. Mr. Wilson sent a letter to the governor in which he expressed his earnest hope for the governor's election. This letter and Secretary Bryan's strong indorsement of Gov. Glynn has gone far to soften the harsh feeling harbored by some organization men on account of the administration's attitude in the primary contest.

ITALY WILL FIGHT ONLY TO PROTECT INTERESTS

Will Remain Neutral Unless She Is Imperiled, New Ambassador Here Declares.

Italy will remain neutral unless her "vital interests" are imperiled, Count Colletti, the new Italian Ambassador, declared yesterday. He said when he left Rome recently after conversations with the leading Italian ministers that they were firmly convinced Italy would take no part in the war, since he has been in the United States, he said, he has had no official advice indicating a change in Italy's attitude.

Italy's colonial minister, he said, informed him before he left that Italy would adopt a new colonial volunteer service system. The reported withdrawal of 40,000 troops from Tripoli, he stated, was simply one of the steps in this new colonial policy and did not indicate that Italy was preparing to enter the present war by withdrawing her trained soldiers to the mainland.

Count Colletti has been paying his official calls upon the other Ambassadors here. One of those whom he met first was Count von Bernstorff, the German envoy.

The new Ambassador is much impressed by Washington after an absence of ten years. At that time he was secretary of the embassy here.
